Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 18 and 19 are still rejected under 35 U.S.C. 102(e) as being anticipated by Saitou et al. (US Pat. No. 5,739,546). See Office action mailed on June 13, 2002.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 20 is still rejected under 35 U.S.C. 103(a) as being unpatentable over Saitou et al. (US Pat. No. 5,739,546) in view of Lou (US Pat. No. 5,759,906). See Office action mailed on June 13, 2002.

5. Claims 21-22 are still rejected under 35 U.S.C. 103(a) as being unpatentable over Saitou et al. (US Pat. No. 5,739,546). See last Office action mailed on June 13, 2002.

Response to Arguments

6. Applicant's arguments filed July 28, 2003 have been fully considered but they are not persuasive. On page 2 of applicant's remarks, applicant argues that the prior art Saitou et al. does not anticipate the claimed invention because "applicant's fill layer is limited to the kerf area and does not extend into the chip area as does Saitou's ...structure" [emphasis added]. However, nowhere in the claims applicant limited the formation of the fill layer to only the kerf area, as now argued. With regards to the arguments that the layer 6 of Saitou et al. is not a "fill layer" (page 3 of applicant's remarks), applicant should note that figure 2 of Saitou et al. shows a layer 6 filling the center of the kerf area (3). Thus, layer 6 is also a "fill layer." Furthermore, applicant argues that Saitou et al. does not teaches "a planar silicon oxide layer" (see pages 4-5 of applicant's remarks). However, figure 3 of Saitou et al. clearly teaches that the silicon oxide layer (7) is planar over the "fill layer" (6). Therefore, the rejection is proper since the prior art anticipates the claimed limitations.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2815

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
